

B2C Service Agent Browser User Interface September 14, 2023 Release

| | |
|--|--|
| | Description |
| | Analytics |
| | An issue that caused the the drilldown to only work for the first drilldown has been resolved. |
| | Chat |
| | As issue that caused agents handling chats in the Browser UI, to see a slight greyness in the public compose control, has been resolved. |
| | Data Import |
| | An issue in the External Objects Designer to not mask the bearer token has been resolved. |
| | Workspaces/Workflow |
| | An issue that caused the workspace rule to hide the wrong tab when a radio button triggers the rule has been resolved. |
