REVISION HISTORY

This document will continue to evolve as existing sections change and new information is added. All updates appear in the following table:

Date	Product	Feature	Notes
02 JUL 2020			Created initial document.

OVERVIEW

This guide outlines the information you need to know about new or improved functionality in Oracle Service Cloud Agent Browser UI and describes any tasks you might need to perform for the update. Each section includes a brief description of the feature, the steps you need to take to enable to begin using the feature, any tips or considerations that you should keep in mind, and the resources available to help you.

GIVE US FEEDBACK

We welcome your comments and suggestions to improve the content. Please send us your [feedback](#)

FEATURE SUMMARY

Column Definitions:

Features Delivered Enabled

Report = New or modified, Oracle-delivered, ready to run reports.

UI or Process-Based: Small Scale = These UI or process-based features are typically comprised of minor field, validation, or program changes. Therefore, the potential impact to users is minimal.

UI or Process-Based: Larger Scale* = These UI or process-based features have more complex designs. Therefore, the potential impact to users is higher.

Customer Action Required = You MUST take action before these features can be used. These features are delivered disabled and you choose if and when to enable them. For example, a) new or expanded BI subject areas need to first be incorporated into reports, b) Integration is required to utilize new web services, or c) features must be assigned to user roles before they can be accessed.

Feature	Ready for Use by End Users (Features Delivered Enabled)			Action is Needed BEFORE Use by End Users (Features Delivered Disabled)
	Report	UI or Process-Based: Small Scale	UI or Process-Based: Larger Scale*	Customer Action Required

ANALYTICS

INLINE EDIT FROM REPORTS WITHIN WORKSPACES

B2C Service has added a new feature to Agent Browser UI. Users can inline edit records from within Workspaces. This saves users from having to open records individually to update the details.

STEPS TO ENABLE

No steps are required to enable this feature.

TIPS AND CONSIDERATIONS

Inline editing must be enable on the report that is used in the workspace.
