

**Oracle B2C Service November 13, 2026 Release Notes**

|  |                                                                                                                                                                                  |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <b>Description</b>                                                                                                                                                               |
|  | <b>Knowledge Foundation</b>                                                                                                                                                      |
|  | An issue that prevented HTML content from being properly formatted when clicking the Edit Source button in the HTML Embed plugin of the Browser UI Answer editor has been fixed. |
